4. Was there anything you think didn't work well?

- Getting the public off the streets and into the event
- Nothing, great day!
- Sign out the front to invite people in - make sure they are aware of the fair
- The pasty 'no show'
- Not many customers, could have been shorter, but still great to network
- Not enough clients
- Participant attendance low
- Attendance of participants
- Not many general public through the door
- The venue is a bit off the main street so the public would have to make a specific journey
- I'm not sure on the answer but it would be great to see more of the public. Possibly host at a weekend or evening
- Think weather worked against the event. It was such a nice day, but you can't order the weather

7. Would you like to provide a testimonial regarding your experience at the Health & Wellbeing Fair so we can use it to apply for funding for next year's event

- As above, lots of information under one roof for people to learn what is available either for themselves or people in their family, friends etc.- Pentreath

- It's so helpful to have an opportunity to meet people doing great things for the community, and to learn about each other - Helston Climate Action group

- Today Helston Action Climate Group has made connections with lots of current and potential partners to accelerate progress on projects that benefit our communities, wish we could do this more often! A really uplifting day, thank you - Melissa – HACG
